

# CompuLaw INTEGRATION PARTNERS

## CompuLaw's Vision Integration Partners

CompuLaw Vision™ calendar software is widely recognized as the industry solution for rules-based calendaring. No other vendor, on any platform, offers a calendar system as powerful and accurate as Vision.

More and more law firms are demanding “Best of Breed” solutions that best serve their needs, in each product category. CompuLaw understands the time-savings and convenience offered by integrated databases—for example, when a matter is added to your billing or records program, that name is automatically added to Vision.

CompuLaw maintains partnerships with “Best of Breed” time and billing,

records management and other top software vendors in the legal industry who integrate their software with CompuLaw Vision software and CompuLaw Rules Databases.™ The integrations vary from client, matter record integrations to full integrations where partners replace the calendar portion of their case and matter management systems with Vision.

CompuLaw offers its partners an integration API that provides access to Vision data as well as a COM server that allows partners to display Vision forms and lists from within their software. Some partners have even created their own integration modules.

Please check with your software vendor for information specific to their Vision integration. Partner software and integration modules must be purchased directly from each integration partner and are not available directly from CompuLaw.

CompuLaw's Vision Partner Integrations address the following:

- Time and Billing (Accounts Receivable)
- General Ledger
- Accounts Payable
- Payroll
- Records Management
- Case Management
- Document Management and more

## CompuLaw's Rules Integration Partners

CompuLaw has selected the leading case management software vendors to participate in the CompuLaw Rules Integration Partner program. We have worked with these companies to integrate CompuLaw Rules Databases into the calendar portion of their software.

Now, the full power of case management is available with CompuLaw Rules Databases inside.

Rules Integration Partners license CompuLaw's extensive library of rules databases powered by CompuLaw's trusted rules processing software engine.

CompuLaw Rules Databases are the most comprehensive in the industry, span multiple areas of practice and cover all 50 states as well as federal jurisdictions.

CompuLaw's rules processing software is widely recognized as the most accurate and reliable in the legal industry and is used by tens of thousands of attorneys, including most AmLaw,<sup>™</sup> LawNet<sup>®</sup> and ABA surveyed firms. CompuLaw offers first-class customer support with prompt responses to questions concerning our rules databases.

### Rules Integration Partners:

- License CompuLaw's unique rules database processing.
- Include many of the top case management systems available.
- Provides top rate solutions to private, corporate, government law offices and legal departments. Provides the opportunity for each to subscribe to CompuLaw Rules Databases and to use CompuLaw's award-winning rules processing software.
- Address the needs of Civil Litigation:
  - ✓ Corporate Law Departments
  - ✓ Insurance Law
  - ✓ Personal Injury
  - ✓ Bankruptcy
  - ✓ International Trade
  - ✓ AAA

- ✓ Family Law
- ✓ Probate
- ✓ Intellectual Property—  
Patents and Trademarks
- ✓ Government Agencies, including  
State and City Municipalities
- ✓ Many other areas of practice

CompuLaw's Rules Integration Partners' Software must be purchased from each integration partner vendor and is not available from CompuLaw.

To purchase, or for more information, please contact each Rules Integration Partner directly.

New Rules Integration Partners are added on a regular basis. Please check with CompuLaw or your case management software vendor to find out how you can begin using CompuLaw Rules Databases.<sup>™</sup>
